What Makes CCG Different?

It's Not a Conference—It's a Convivium

Unlike traditional crypto events with keynote speakers and expo floors, CCG is:

- **Fully participant-driven** — No pre-set agenda; schedule co-created daily
- **Deeply relational** — Week-long format enables genuine connection
- **Off-grid & intimate** — Mountain retreat setting, away from distractions
- **Non-extractive** — Built on commons principles, not corporate incentives

Attendees Contribute, Not Just Consume

Everyone who attends CCG joins a **Commons Crew**:

- Kitchen crew
- Cleaning crew
- Documentation crew
- Fire/Water crew
- Atmosphere care crew

This creates a fundamentally different relationship between participants and the event—one of mutual care and shared responsibility.

Testimonials

"CCG is where I found my people—the ones who actually believe another world is possible and are building it together."

— **Returning participant, 2024**

"The ideas I encountered at CCG completely changed how I think about protocol design. It's like nothing else in the crypto space."

— **ReFi builder, 2023**

"I came for the unconference, I stayed for the community. Four years later, my closest collaborators are people I met at CCG."
